Each game has a maximum time slot of fifteen minutes, this way our Kylamstian card game is unique when comparing to other poker tournaments. Moreso, the environment creates a different point of view for the players, they can both relax and focus at the same time. Your bodies will be cleansed, out with the old, in with the new. There is just no better way to win your share of money than in our casaunas.

place

All casinos in Eclohringr accommodate at least one traditional Casauna. Our Casaunas are constructed with carefully selected Kylmastian spruce and pine from the beautiful rich woodlands of the East of the country. There may be other casaunas built in the east of Kylmästo, whilst hiking through the tundra and forest you might come upon a historic Casauna. Those are dated from centuries before Eclohringr brought the knowledge of the structures into the gambling capital.

price

As this is an exclusive experience for any Kylmastian or visitor, the demand is high and so is the price. With a set national minimum price of 100 Kylmastian Dollars fee and a minimum of 1000 KD starting game price, we try to grant access to the exact appropriate invitee. It goes without saying that access to the historic casaunas not located in Eclohringr will all be priced differently.

people

Ancestors provided Kylmästo with this stunning tradition. Perhaps you can find yourself some locals whilst hiking through the woodlands to challenge them to a game of poker in their loved casauna. You may learn a thing or two under the pressure of the hot stones and light cards.

As regards to playing this highly detoxing but addictive game in the capital, be sure to bring your heart and soul with you, and let them free on the table. You will without a doubt, make friends and foes whilst exposing your essence. Poker face on, bath robes off.
